Subject: Pat's Throat dam

Date: Tue, Jan 18, 2022 12:15 pm

Hi Mr. Guarisco,

Water is coming up, dam across Pat's Throat still there, fishermen can't access their fishing grounds and sand and silt forever will change the hydrology of the area, another environmental catastrophe that could easily been avoided.

Could you please give us an update on the illegal damming of Pat's Throat? We would like to know if a Cease and Desist was issued, after the fact permit status or any other issues/actions related to this case.

Happy New Year!

Dean
