Subject: Violation by Bayou Bridge

Date: Tue, Feb 20, 2018 9:59 pm

Attachments: DSC_0070.JPG (6491K), DSC_0071.JPG (6552K)

Hello Brad,

Bayou Bridge blocked Bayou Set with bushes and branches. Bayou Set is the main waterway bringing fresh water to the area north of the pipeline and is the main waterway that people use to access those swamps by boat. It is also the main waterway used for high water swamp tours so this is going to have a huge impact to the local economy.

The blockage is exactly 1 mile west from the Intercoastal waterway that runs along the Eastern Atchafalaya Basin levee. Coordinates: 30° 05'25.78" N 91° 19'37.20" W

The branches will be capturing sediments and sand and will silt-up the bayou. See pictures attached. Please notify us of any enforcement actions.

Thank you,

Dean
