Negotiation Competition: In light of the pandemic, the negotiation competition will be held **entirely virtually** this year. While the format of the competition will largely remain intact from a negotiation standpoint, some aspects will be different than in previous years. This year’s competition will be held starting Wednesday, February 24, 2021 through Saturday, February 27, 2021. Because of this, the early registration fee for each team will be **\$300**. Teams can be comprised of up to four (4) members (including a coach). The deadline for early registration will be **Friday, December 11, 2021**. After January 1, the registration fee will be **\$350**, with the final registration deadline being **Friday, January 1, 2021**.

On the registration form, for each team member, please provide a phone number and e-mail address that we can reach, along with one email address that each team can be reached at for any competition updates. In addition, please list the team’s coach, if any, along with his or her contact information, position, and employer. A school may indicate its desire to send a second team by submitting a second registration form and noting “#2” following the school’s name.

Schools that have a qualifying internal competition may register a team without specifying the team member names in the registration form. In that case, the registration form must include the contact information of the person in charge of the school’s internal qualifying competition and/or the team coach. In addition, the school must submit the applicable entry fee.
